OUR Portland area has enjoyed a very favorable growing season. One of our pioneer nurserymen recently remarked that he did not recall a season when from early Spring until September weather conditions had been as nearly ideal for the growing of nursery stock as during this year.

Our line is complete, and everything we have to offer has had the best of care.

Berekman's Golden Arborvitae
(15-18 inches)

This plant is securely balled, first with burlap, then with 2-way stretch waterproof paper, and is all ready for shipping.

CHANGE OF LOCATION

We are pleased to call your attention to the fact that we are erecting an up-to-date building at the corner of East 12th Avenue and Pine Street, and are planning to move October 1. Although our investment is conservative and our overhead not materially increased, we will have much better facilities for handling stock and giving prompt service. We shall be very glad to have you call on us, and if we can help you in any way, we shall be pleased to do so.

We reserve the privilege of charging 2½ to 5 cents more per tree in case less than five of a variety are ordered.

SPECIAL PRICES FOR CARLOT ORDERS

Although we are quoting in quantities up to 100, somewhat lower prices can be allowed for large quantities and for carlots.

In case considerable weight is involved in an order, we urge you to inquire into the carlot rates.

IMPORTANT NOTICE

Balled plants now take 3rd class freight rate when shipped unpacked. (Without being boxed or crated).

In a great many cases we save our customers money by securely wrapping the ball with 2 way stretch water-proof paper, tying the tops when necessary, and shipping without boxing.

Transportation employees handle the plants carefully, and the water-proof paper on the balls prevents drying out.

PORTLAND ROSES

The roses we offer below are all grown near Portland in good sandy loam soil, entirely without irrigation, thus securing a particularly fine root system, and firm, well ripened wood. They are all budded extremely low.

PLEASE NOTE. Our roses are tied in bunches of ten, and we do not break the bunches at the per ten price. If less than ten are ordered the price is 2½ cents higher per plant.

BULBS

During the last few years the production of Bulbs, particularly DAFFODIL and IRIS, has increased at an amazing rate here in the Portland area.

These Bulbs are clean, of excellent quality, properly dug and graded, and the prices are reasonable.

The market fluctuates somewhat, and the line is too extensive for us to publish in this catalog, but we are in a position to quote you on any quantity in which you may be interested, and your inquiries are solicited.

PEONIES

Oregon grown Peonies that have not been damaged by frost or drought. We guarantee a good grade of strong three to five-eye divisions. 25 of a variety take the 100 rate, and 250 take the 1000 rate.
